

Voltage Source Data

This component is a fixed voltage source. The short circuit capacity is fixed to 1,000,000,000 MVA.

Voltage Source Data

Entry	Description	Acceptable values
Name (in 'Source Node' box)	Source node identifier	May contain up to 31 letters and/or numbers, but no blank spaces.
Operating Voltage (in 'source' box)	Source node operating line to line voltage in kV	Any value
