

Imperix Control Products

Since 2018, OPAL-RT and Imperix have partnered to resell complementary components of their product lines in order to respond to the increasing need for power electronic experimental testbed solutions.

See also [Imperix Power Products](#)

Imperix's catalog includes a series of Prototyping Controllers, among which can be found the following:

B-Box RCP 3.0	integrated in the OP1300 microgrid test bench	(Datasheet) (Product Brochure)
-------------------------------	---	--

For detailed information on these products, consult the [Imperix](#) website.
